Press Release: "Superior Fencing"
New Colorbond® Slating, Maintenance free fencing.

Norman Park, Queensland, Wednesday, 12th July, 2006 — **Superior Steel Screens Australia Pty Ltd** has a new sales leader in its range of products.

"Fencing Australia" Superior Steel Screens, COLORBOND® and BlueScope steel are a powerful combination, practical, durable, stylish and impressive to look at. As a national group of professional COLORBOND® experts Superior Steel Screens customizes fencing to any need.

From flat slatting of various sizes used to form stylish designer fencing, to several styles of louvers to meet ventilation, shading or residential code requirements. Privacy screening is now very popular and is often incorporated with sun shading giving the screens a dual role.

Australian made, strong, long lasting fencing and louvres are demanded by designers and owners alike. Superior Steel Screens are found in gardens, factories, commercial projects and residences across Australia.

Superior Steel Screens are Second to none for Colorbond® steel products:

- General & Garden Screening
- Shade & Shade Structures
- Window Protection
- Privacy & Security Screens
- Lattice & Trellis
- Slatting
- Louvres
- Window Awnings

- Balustrades
- Fences
- Gates
