Woodgrain Finishes First at Superior Screens

Superior Screens has released a stunning new woodgrain finish for its range of steel and aluminium products, resulting in a natural timber look that doesn't cost the earth for your screens, awnings, fences, gates, louvers and shutters.

Available in Bush Cherry, Jarrah, Light Oak, Kwilla, Tassie Oak and Western Red Cedar finishes, the new wood-look reduces the old worries of termite infestation and wood-rot.

Superior Screens General Manager, Ms Rita Turnour, said the woodgrain finish is perfect for a natural timber-look and will not rot, split or twist.

"You can enjoy the natural beauty of timber without the maintenance costs and durability problems associated with timber," Ms Turnour said.

With a 10 year warranty on the film and colour integrity of the finish, the new product eliminates all painting, oiling and staining requirements.

Superior Screens is Australia's leading producer of COLORBOND® steel and aluminium screening products providing innovative sun-control and privacy solutions for residential and commercial properties.

Superior Screens has a national network of distributors – for your closest, please call 1300 766 799 or visit www.superiorscreens.com.au

Ends.
